Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)				
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:				
Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:				
2. Claims Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:				
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).				
Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)				
This International Searching Authority found multiple inventions in this international application, as follows: A matter common to the subject matters of claims 1-5 is "a modified polyvinyl alcohol protected by a protective group, wherein the content of high-molecular components having a weight-average molecular weight, as determined through measurement by gel permeation chromatography, of 250,000 or higher is up to 1,000 ppm." However, as a result of a search, it has become obvious that the modified polyvinyl alcohol is not novel because it is disclosed in document JP 3-200805 A (Sekisui Chemical Co., Ltd.) 1991.09.02; the claims; page 2, lower left column, lines 2 to 6; Example; etc. (continued to extra sheet) As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:				
 No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.: Remark on Protest The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees. 				

International application No.

PCT/JP2004/003650

Continuation of Box No.III of continuation of first sheet(2)

As a result, the common matter is considered to be within the scope of the prior art. Consequently, this common matter is not regarded as a special technical feature in the meaning of the second sentence in Rule 13.2 of the Regulations under the PCT.

Therefore, it is obvious that the subject matters of claims 1-5 do not comply with the requirement of unity of invention. Incidentally, the International Preliminary Examining Authority considers that the scope in which the requirement of unity of invention is satisfied is as follows.

Claims 1-2 or claims 3-5
